SUMMARY

A confident Django web developer with more than 6 months of working experience along with a core skill of python and java programming language. Along with the SQL and NoSQL database management knowledge, I am always enthusiastic about enhancing my skills in the IT field as much as possible.

With my previous working experience as Cashier, photo and video editor, and web designer, I have developed a friendly and approachable persona with the customer which gives me more encouragement to apply for high-level posts.
